## PECP Overview:

Legal name ("PECB Group Inc.") is a certification body, which provides education<sup>1</sup> and certification under ISO/IEC 17024 for individuals on a wide range of disciplines. They help professionals and organizations show commitment and competence by providing them with valuable education, evaluation and certification against rigorous internationally recognized standards. Their mission is to provide the clients with comprehensive services that inspire trust, continual improvement, demonstrate recognition, and benefit the society as a whole. Aljhood is PECB' ATP and we can promote and deliver all their services and products in mina region.

## Why should you attend?

The ISO 31000 Risk Manager training course helps participants acquire the knowledge necessary and ability to integrate the risk management guidelines of ISO 31000 in an organization. It provides information with regard to the risk management principles and their application, as well as the core elements of the risk management framework and steps for a risk management process. In addition, it provides the basic approaches, methods, and practices for assessing risk in a wide range of situations.

Upon completion of the training course, you can sit for the exam and apply to obtain the “PECB Certified ISO 31000 Risk Manager” credential. The credential demonstrates your knowledge and ability to apply the risk management process in an organization based on the guidelines of ISO 31000 and best practices.

## Learning Objectives:

**By the end of this training course, the participants will be able to:**

- Demonstrate understanding of risk management principles, as formulated in ISO 31000.
- Establish, maintain, and continually improve a risk management framework, in accordance with ISO 31000 guidelines.
- Apply the risk management process, in accordance with ISO 31000 guidelines.

## Educational Approach:

- The training course is based on theory and best practices used in risk management.
- Lecture sessions are illustrated with practical examples.
- The participants are encouraged to communicate and engage in discussions and exercises.
- The exercises are similar in structure with the certification exam questions.

## Prerequisites:

A fundamental understanding of ISO 31000 and comprehensive knowledge of risk management.

## Course Modules:

- Introduction to ISO 31000 and risk management and establishing the risk management framework.
- Initiation of the risk management process and risk assessment based on ISO 31000.
- Risk treatment, recording and reporting, monitoring and review, and communication and consultation according to ISO 31000.

### PECB Examination:

The “PECB Certified ISO 31000 Risk Manager” exam complies with the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competency domains:

**Domain 1:** Fundamental principles and concepts of risk management.

**Domain 2:** Establishing the risk management framework.

**Domain 3:** Application of the risk management process.

### General Information:

- Certification and examination fees are included in the price of the training course.
- Training course materials containing over 300 pages of information and practical examples will be distributed to participants.
- An attestation of course completion of 21 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- If you fail the exam, you can retake the exam once for free within 12 months following the initial exam date.

**The End,**
